EDUCATION

Bachelor in Analysis and Systems Development, Universidade Anhembi Morumbi, 2022

EXPERIENCES

Software Engineer, Act Digital, Banco BV — 2024 - Present

Worked in the Fraud Prevention area, focusing on the security of workflows and data for all the bank's products. Technologies used: Java, Spring Boot, Jest, GCP, and AWS.

Solutions Engineer, Saveincloud — 2024

Provided guidance on cloud solutions, offering strategic support in the development of DevOps pipelines, application deployment, selection and optimization of databases and related technologies, ensuring efficiency and scalability. Technologies used: Linux, Kubernetes, Docker.

Software Engineer, Itaú S.A. - 2021 - 2023

Active involvement in backend development, designing and implementing APIs from scratch using Java, Spring Boot, Maven, and related technologies, alongside seamless integration with SQL databases. Additionally, contributed to backend systems based on the Backend for Frontend (BFF) architecture, orchestrating connections between multiple APIs and security services. Experience also includes maintaining and enhancing services developed in Python, Kotlin, and Swift.

Software Developer, Tera, 2019-2021

Development and support of platforms using HTML5, CSS3, Sass, JavaScript, Vue.js, React.js, Node.js, MySQL, Google Cloud, and Firebase technologies, as well as web accessibility.

IT Instructor, {reprograma}, minas programam, Tera, Facebook

Engagement in teaching about Git and Github, HTML, CSS, Javascript, SCSS, React.js, Bootstrap, Programming Logic, Algorithms, Programming Languages, Web Architecture, SQL and NoSQL Databases, Node.js, MongoDB, Web API, package management, and web security.

TECHNICAL SKILLS

Java - Springboot - Javascript - Node.js - React - Vue.js - Typescript - Python - AWS - GCP - Git - Firebase - Firestore - SQL/NoSQL - Agile Methodology

COMPLEMENTARY COURSES AND CERTIFICATIONS

How To Builld Digital Products - 2020
Product School

Digital Product leadership Data Science & Machine Learning for Business - 2020
Tera

LANGUAGES

English - Advanced
Spanish - Basic
